MAJOR / MINOR REVISIONS TO APPROVED USE OR DEVELOPMENT PERMITS

DEPARTMENT OF DEVELOPMENT SERVICES 10601 Magnolia Avenue, Santee, CA 92071 (619) 258-4100, Ext 167

THIS PACKAGE PROVIDES AN OVERVIEW OF THE PROCESSING OF MAJOR / MINOR REVISIONS TO PREVIOUSLY APPROVED USE OR DEVELOPMENT PERMITS FOLLOWED BY THE SUBMITTAL REQUIREMENTS AND APPLICATION FORMS

OVERVIEW:

The Santee Zoning Ordinance delineates requirements for processing changes to approved Development Review (DR) permits, Conditional Use Permits (CUPs), and Minor Conditional Use Permits (MCUPs). Please contact staff prior to beginning work on this application to determine the specific review process appropriate to the proposed project.

Development Review Permits

Section 17.04.060 of the Santee Municipal Code (SMC) discusses the process for changes to architecture, approved site plans, conceptual grading plans, landscape plans, or development review plans. Minor changes in an approved land use or development permit may be administrative approved by the Planning Director. Examples of minor revisions or changes are listed in Section 17.04.060.A of the SMC. Revisions or modifications which are not considered minor shall be considered Major Revisions and shall be processed through the same approval procedure and authority which granted the original approval.

Use Permits

The process for revisions or modifications to Conditional Use Permits (CUP) or Minor Conditional Use Permits can be requested by the applicant. The applicant shall supply necessary information as determined by the city, to indicate reasons for the requested change. Proposed changes in the intensity of use, changes to the conditions of approval, or other significant changes could be considered a Major Revision and would require a review process similar to that of a Conditional Use Permit. Minor revisions / modifications can be processed for Director review in accordance with Section 17.04.060 of the SMC.

For revisions to development or use permits, the City must determine that the circumstances, standards, ordinances, conditions and findings applicable at the time of the original approval still remain valid.

PROCESS:

The following describes the process for a Major Revision. The process for Minor Revisions is similar except that Minor Revisions do not require City Council review and therefore a preapplication and public noticing package is not required.

Pre-application

Projects which require a public hearing before the City Council must process a Pre-Application. The Pre-Application process is designed to identify those issues which may impact the design of the project early in the approval process. The applicant would submit the attached application and as many of the supporting documents as possible and pay the Pre-Application <u>fee</u>. The more project details provided the better review that can be conducted.

City staff will review the submitted documents and will provide input on possible environmental concerns, General Plan and zoning requirements, traffic, site and design criteria. This early identification of issues will limit possible delays and plan revisions. Approximately four (4) weeks from the date of submittal a pre-application meeting ("Design Conference") will be held at City Hall. This meeting is an opportunity for the applicant to discuss comments with representatives of the Departments of Development Services and the Fire Department. The written comments from City staff and discussion at this meeting will be encapsulated in a letter to the applicant.

Application

After the pre-application meeting ("Design Conference") the applicant can redesign the project to incorporate any changes that may have been requested or required by City staff. An appointment shall then be made with the assigned Project Planner, prior to formal submittal. The applicant should submit the completed formal application packet to the Department of Development Services. The Project Planner will review the materials to ensure that all of the required information is submitted. This completeness check shall be completed within 30 days of project submittal.

Project and Environmental Review

All environmental documents for submitted projects will be prepared by consultants hired by the applicant. The City of Santee will not prepare Negative Declarations, Mitigated Negative Declarations, or Environmental Impact Reports for submitted projects. After the application is submitted to the Department of Development Services, the site plans will be sent to the appropriate public agencies involved in the project for their review and comment. Once the proposed project has been deemed complete and after the completion of an Environmental Initial Study, an environmental determination will be made.

If City staff determines that no significant environmental impacts are anticipated, staff will direct the applicant to retain a consultant to prepare a Negative Declaration or Mitigated Negative Declaration. If City staff determines that the project will have a significant environmental impact, staff will direct the applicant to retain a consultant to prepare an EIR, which will be prepared and circulated for public review and comment.

City Council Hearing

Once the project is deemed complete, all issues addressed, and the environmental review process has been completed, the Project Planner will schedule item for a hearing before the City Council. The City Council will consider the recommendation of the Department of Development Services and will, at a public hearing, either approve the Tentative Map or Tentative Parcel Map as submitted, approve with modification(s), or deny the project.

Post Entitlement

If the project is approved, the applicant shall pay a document filing fee to the County Clerk and the California Department of Fish and Wildlife fee based on their level of CEQA review (State Law - AB3158). Contact the California Department of Fish and Wildlife for current fees (www.wildlife.ca.gov). The applicant shall also schedule a *Post-Entitlement meeting* with the Project Planner. The goal of the meeting is to ensure that all parties understand the conditions of approval, the expected project timeline, and the follow-on permitting process.

Note: Contact Santee Elementary School District at (619) 258-2320 and Grossmont Union High School District at (619) 644-8000 for their requirements.

SUBMITTAL CHECKLIST

1.	Application:
	a Completed and signed Minor / Major Revision Application Form
	b Environmental Information Form
	c Sewer & Water Availability Forms (signed by Padre Dam Municipal Water District Print forms at http://www.padredam.org/242/Development-Services
	d Storm Water Intake Form http://www.cityofsanteeca.gov/index.aspx?page=585
	e Hazardous Waste Statement
	f Ownership Disclosure Statement
2.	Plans: (Eight copies 24" x 36" - collated, stapled and folded in sets to 8½ " X 11" size and two sets 11" x 17")
	 a Site plan showing all existing easements on-site and all structures, uses, and driveways within 100 feet of the subject property.
	b Building elevations (with callouts showing building materials and colors to be used).
	c Preliminary landscape plan.
	d Preliminary grading plan (showing all cut and fill areas, pad elevations, slope heights, and retaining walls) and public improvement plan.
	e Preliminary floor plan.
	f PDF copy of plans on a disk/thumb drive.

3.	Title	Report
	a.	Three (3) copies of current (not more than six months old) Preliminary Title Report and Grant Deed. The Preliminary Title Report shall have a copy of each easement referenced in the report.
4.	Tecl	nnical Studies / Special Exhibits (as required - 3 copies each)
	a.	Geotechnical report
	b.	Drainage study
	C.	Storm Water Management Plan
	d.	Preliminary Biology Report prepared by a certified Biologist
	e.	Traffic Impact Study
	f.	—— Hydraulic Analysis prepared in accordance with the City of Santee Flood Study (This is only for projects that are located within the floodplain). Please contact the Engineering Division at (619) 258-4100 x168 for questions regarding the Hydraulic Analysis.
	g.	Any other technical studies, documents, etc. as requested by the Department of Development Services.
	h.	An electronic copy of all technical reports in PDF format on a disk/thumb drive.
	i.	Color and materials board (one 11" x 17") showing samples and manufacturer's callouts of building materials.
5.	<u>Pub</u>	lic Notice Package (For Major Revisions Only)
	a.	One (1) set of San Diego County Assessor's map(s), marked-up showing the entire property outlined in red with a green line encircling the property at a distance of 300 feet from the property line. Each parcel lying wholly or in-part within the 300 feet shall have its Assessor's number colored yellow with a "highlighter" pen or yellow colored pencil. Assessor's maps must be 11" x 17" (full size) at true scale and not reduced.
	b.	Two (2) sets of mailing labels and one (1) copy of mailing labels in the standard mailing address format (Avery Template 5360). The list of labels shall be prepared by a Title Company. The typed list must include all affected property owner's parcels highlighted in yellow as above; by Assessor's Parcel Number with names and address. The addresses must be the property owner and not the leaser or renter. In addition, the mailing list shall include the name and address of the subject property owner, applicant, and the agent or individual responsible for the request.
	C.	Envelopes and stamps are not required. Costs associated with the required public mailing/noticing will be charged to the project deposit account.
	6. <u>Fe</u>	<u>es</u>
	a.	Major / Minor Revision Application Deposit
	b.	Application for Environmental Initial Study fee
